Subject: Arizona DMR Input for 11/28 (View in HTML)

Date: Tue Nov 28 2017 18:06:45 EST

Attachments:

Teammates,

Our DMR input is below. Feedback is always welcome.

SOCIAL MEDIA:

@CBPArizona

11/28: #CBP Yuma Sector #USBP agents involved in a shooting early this morning while assisting @Arizona_DPS and @LCountySheriff on I-10 MP 51 west of Phoenix. Details: bit.ly/2hYXh9q. Updates to follow.

11/28: Ajo #USBP agents arrest illegal alien smuggler with firearm as he was smuggling three others near Gila Bend #CBP is always #KeepingAmericaSafe bit.ly/2BibaqR

SOUTHWEST BORDER:

11/27: Reporter Molly Peterson of WGBH Boston-NPR has requested an interview with TCA Border Lands Liaison, pertaining to CBP stewardship of public lands along the Arizona-Mexico border. She previously travelled to our area in 2005, when she talked with TCA about the ways that DHS/CBP considers environmental values, while also maintaining the primary responsibility of national security. Deadline is 12/1 for a 1/1 air date. Coverage is expected to be balanced, highlighting the negative environmental issues illegal migrants cause as well as allowances given to Border Patrol that may frustrate environmentalist and/or land owners.

Ms. Peterson's 2005 report can be heard here: <http://www.loe.org/shows/shows.html?programID=05-P13-00019> "The Department of Homeland Security will be free of any environmental constraints in border control under a little-noticed provision just passed by Congress. Molly Peterson reports from the Arizona border what the change could mean. (07:00)"

Lead: (b)(6);(b)(7)(C)

-30-

Respectfully,

(b)(6);(b)(7)(C)

All,

It is CBP's and OPA's policy to treat everyone with whom we interact with dignity and respect. Whether an illegal alien or alleged (or even convicted) criminal, all are human, and should be treated humanely.

In our job as communicators, we must reinforce that message in every form of communication, from social media to the web, from print to broadcast media, we must guard against using language that detracts from that inherent dignity and respect.

I understand that social media is far more conversational than traditional media and often uses creative word play to attract readers or followers, or better, re-tweets of our messages. However, this is where we need to ensure we're not making light of an individuals' circumstance. I cite as an example the use of 'catch of the day' which is appropriate for fish, or substances interdicted, but not in reference to people.

There is no way to create a list of appropriate or inappropriate terms, so I rely on your judgment as PAOs to ensure we maintain the highest standards in all our forms of communication.

Very respectfully,

Subject: SOCIAL MEDIA REFERENCES

All,

It is CBP's and OPA's policy to treat everyone with whom we interact with dignity and respect. Whether an illegal alien or alleged (or even convicted) criminal, all are human, and should be treated humanely.

In our job as communicators, we must reinforce that message in every form of communication, from social media to the web, from print to broadcast media, we must guard against using language that detracts from that inherent dignity and respect.

I understand that social media is far more conversational than traditional media and often uses creative word play to attract readers or followers, or better, re-tweets of our messages. However, this is where we need to ensure we're not making light of an individuals' circumstance. I cite as an example the use of 'catch of the day' which is appropriate for fish, or substances interdicted, but not in reference to people.

There is no way to create a list of appropriate or inappropriate terms, so I rely on your judgment as

PAOs to ensure we maintain the highest standards in all our forms of communication.

Very respectfully,

This is the result of the Nation Dog Day effort that the IPT work hard on. Thank you (b)(6);(b)(7)(C) for the great work! Let's be mindful of the takeaways below. And keep in mind, animals sell!

Thank you,

I pulled some stats from the K9 IPT effort (attached)

Key take aways:

The videos performed very strongly, over 4000 views of the videos on Twitter, more than 10,000 views on Instagram

Lessons learned: One video did not get posted to Twitter as it was too large a file. Twitter can only take a 15MB size video file. These videos were not uploaded to YouTube so there was not an alternative way to post. Request smaller compressed video files for the future.

Great effort.

Fantastic content.
